RE: FEEDBACK ON YOUR VERY TRUE ADVERTISING OF 'NATURE B' PRODUCTS.

Dear Sir/Madam,

Thankyou for your wonderfully successful product that is available to us, here in 'AUSTRALIA'.

Our letter head and attachment will explain our work, hopefully to let you know that we deal with many varied people in our volunteer working project.

We are so very pleased with the results that have already been seen and therefore, believed by us and others that we come in contact with.

Recently we purchased, POTENTIATED POLLEN for one of our Clients who suffered severely with Allergies to their - eyes, ears, nose, throat and skin. The symptoms included:- itching, dripping, running, sneezing and dryness to the affected sights. We are pleased to inform you that this particular Client is already responding extremely well to your product. The dosage commenced on 29/1/04, and results were noticed in the first week. **THANK YOU!**

Our next challenge was for an extremely overweight Client in his early teens. He has been taking your BEE SLIM for only a few days and at present, he has not asked for more food or sweets. His protruding stomach is already showing signs of size reduction. **THANK YOU!**

Compliments of:
Elle - Beth Printing.
