Dear Sir

I thought I would write ^{to} you about MATUREBE, I have been taking them for about 18 months now. I have Anaemia, I know that the tablets will not cure me, but they are helping me in a way that I don't get the tiredness as much as I use to, it will help my immune system.

My friends ask me how can I afford to pay \$100 for the tablets, as we are on the pension, I have told them that I get the six months supply which works out at 50 cents per day, and if they were to put \$4.00 away every week that they would have the \$100.00 and not miss the \$4.00.

I have never heard any bad reports about MATUREBE, when new tablets come on to the market, they generally find some thing about them to damage your health specially doctors or some of them anyway.

I hope this letter makes some sense, I have just turned 80 on the 28 March, I do ballroom dancing 4 times a week, I could not have done that 2 years ago

Thanking you
Phyl Smith
